

PRESS RELEASE

Nanterre, 27 November 2024

ANA (VINCI Airports) signs the main contract to launch modernisation works at Lisbon Humberto Delgado airport

- **The contract was signed during a ceremony attended by Prime Minister and Minister of Infrastructure and Housing of the Republic of Portugal.**
- **€233 million investment to improve the airport's quality of service, operations, customer experience and carbon footprint.**
- **This is the largest capex contract since VINCI Airports invested in ANA.**

ANA Aeroportos de Portugal, a VINCI Airports subsidiary, has signed a €233 million contract with a consortium including Mota-Engil, VINCI Construction Grands Projets, Alves Ribeiro and HCI, during a ceremony attended by Portugal's Prime Minister and Minister of Infrastructure and Housing, to enhance the passenger experience and streamline operations at Lisbon airport.

The works are expected to be completed by 2027.

This investment plan involves:

- The expansion of Terminal 1 with a new 33,000 sq. metre South Pier, designed with high-environmental-performance objectives;
- The construction of 10 boarding bridges and 12 aircraft parking stands;
- The remodelling of the existing Central Pier and the connection to the future South Pier;
- The redesign of the entire South bus gates.

The Terminal 1 upgrade will:

- Enhance passenger comfort by enlarging the terminal and boarding in direct contact with the terminal and providing direct access to aircrafts;
- Improve airport operational performance;
- Reduce the airport's carbon footprint with high-energy-performance infrastructure and less vehicle traffic on the apron.

This investment is part of VINCI Airports' drive to expand connections in Portugal while upgrading the quality of service it provides for passengers. ANA has invested €120 million in the country's airports so far in 2024.

About VINCI Airports

The world's leading private airport operator, VINCI Airports operates more than 70 airports in 14 countries. Thanks to its expertise as a global integrator, VINCI Airports develops, finances, builds and manages airports by providing its investment capacity and its know-how in optimizing operational performance, modernizing infrastructure and managing their operations and environmental transition. VINCI Airports is the first airport operator to have committed to an international environmental strategy in 2016, to achieve the goal of net zero emissions across its entire network by 2050
